To whomsoever this may concern

This is to certify that Mr. Ayush Vardhan Khanna has undergone internship at our Water Business Group from June 20, 2018 to June 28, 2018.

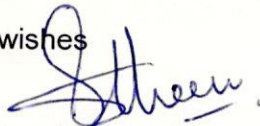

Triveni Engineering and Industries Ltd is amongst the largest sugar manufacturers in India and the market leader in its engineering businesses comprising high speed gears, gearboxes, and water treatment solutions, with over 10 manufacturing locations across India.

Ayush began his internship with an overview of the organization and our water business group, and was gradually exposed to understanding more complex concepts including sewage composition, water treatment processes, as well as the physical, chemical, and biological processes etc. He worked with established engineers and researchers in various departments to better understand our work.

Ayush far exceeded our expectations as an intern. He was found to be hard working, diligent, motivated and willing to learn.

We wish him the very best for all future endeavors.

Best wishes

Sanjeev Asthana
Vice President (HR)
